

2.4 Step of good ISO -

The process for complying with the ISO 9000 standards and obtaining certification can be complex. From the experience of other companies, there are recommended steps to follow in order:

1. Get to management commitment - Top management consider ISO 9000 registration & quality steering committee meets to evaluate process.
2. Train personnel: Hold basic quality and ISO 9000 training for all employees. select and train personnel to be internal auditors.
3. Select registrar - Research registrars and their cost. Quality possible registrars. select third party registrar.
4. obtain ISO 9000 registration

This verifies that you operate your business in compliance to the ISO 9000 requirements.
