

Section-3.

1. Applications of Extranet.
- Typical Extranet Applications
- supply chain management
 - Customer Communication
 - Distributor permission
 - Online Commerce
 - Order status enquiry
 - Inventory enquiry
 - ~~Cost~~ Customer service
 - Account status enquiry
 - ~~Policy~~ warranty claims
 - Online decision form

Extranet applications are as varied as intranet applications. Some examples are listed above. Extranets are advantageous anywhere that day to day operations processes that are being done by hand can be automated.

A business strategy can be defined as the combination of all the decisions taken and actions performed by the business to accomplish business goals and to secure a competitive position in the market.

It is the backbone of the business as it is the roadmap which leads to the desired goals. Any fault in the business of getting lost in the crowd of overwhelming competitors.

A business objective without a strategy is just a dream. It is no less than a gamble if you enter into the market without a
