1

Write the Short municipal
Solid waste rules 2016.

Ans

Municipal Solid Waste commonly known as trash or garbage in the United States and rubbish in Britain, is a waste type consisting of everyday items that are discarded by the public. Garbage can also refer specifically to food waste as in a garbage disposal. The two are sometimes collected separately. In the European Union, the semantic definition is mixed municipal waste given Waste Code 200301 in the European Waste Catalogue although the waste may originate from a number of sources that has nothing to do with a municipality in collecting and treating these kinds of waste have produced the Periculation symptoms municipal.
