SECTION - I

Q1

Ans 1. "As the seed, thus the plant", it means in plant order there is a seed conformance. The plant grown from a seed will have the same quality that were present in the seed. A neem seed will always sprout a neem plant. All of us know this. Its fruits, its leaves, the taste of the leaves, the colour of the leaves, all this information, this basic information of every neem plant is stored in the seed. Thus, we say that plant is always as the seed, or we can say, as the seed, thus the plant. Hence, we say that a plant conforms to the seed, or has 'seed conformance'. This 'seed conformance' method is the mechanism by means of which the continuity of a plant species is maintained in nature/existence.
