Q3 Harmony in Nature

The aggregate of all the mutually interacting units - big or small. Sentient together can be called nature. These units are infinite in number. These units are infinite and we could clearly observe that there exist a dynamic balance in nature. The laws of nature has a unique cause and effect system which must be understood in order to be in harmony with the natural laws of thing.

Natural harmony is necessary for the following

- * Natural harmony is necessary to solve the problem of global warming and depletion of non-renewable natural resource can be avoided.
- * Natural resource can be avoided and harmony with trees cure all problem like - reduction of wild velocity energy savings doing companion planting, development of an subsystem in term of establishment a forest garden, reduction of building heat.
