

## Section-1

Ans-1

As the seed, thus the plant, it means in plant order there is a seed conformance. The plant grown from a seed will have the same qualities that were present in the seed. A neem seed will always sprout a neem plant. All of us know this. Its fruits, its leaves, the taste of the leaves, the colour of the leaves, all this information, this basic information of every neem plant is stored in the seed. Thus, we say the plant is always as the seed, or we can say, as the seed, thus the plant'. Hence, we say that a plant conforms to the seed, or has 'seed conformance'. The 'Seed conformance' method is the mechanism by means of which the continuity of a plant species is maintained in nature/existence.

## Ethics

Professional ethics refer to the ~~seed~~ & code of conduct, moral ideals and policies any professional should follow. It is the ethical obligation that people in a profession have to follow due to their professional status.

## Universal human order

- \* Our surroundings include air, water, space, plants and animals. The total existence has a togetherness and co-existence. This togetherness in an organized manner where every individual serves a function as is ready to help and support others is known as universal human order alternative or svarajya.
- \* For the understanding of harmony and undivided society human endeavour in form of education, health, production, justice exchange is necessary. A correct appraisal of our surrounding will lead to help us to find a viable alternative of prevailing pattern of human living.
