

Section - 2

Ans - ① Value of Education :- ① The value orientation should become the main focus of our educational system. In providing education for values whole of the society should be involved. The emphasis should be on moral development of the student.

Professional Ethics

- ① Professional ethics refers to the code of conduct, moral ideals and policies, any professional should have to follow.
- ② It is the ethical obligation that people in a profession have to follow, due to their professional status.
- ③ It is the activity and discipline aimed at understanding the moral values associated with any particular profession.
- ④ Every occupation has its own set of ethical obligations.
- ⑤ For the engineering profession it can also be termed as engineering ethics. It is not a fixed text to be ~~kept~~ learnt once has to review it constantly against changing standards.
