

## SECTION- 3

S-140, 1032

Ques 171

Ans 171 → The general assembly of the United Nations approved by consensus two resolutions presented by BOLIVIA. The first entitled "Harmony with Nature," asks to convene an international dialogue on International Mother Earth Day on April 22, 2011. The resolution recognizes that "human beings are an inseparable part of nature, and that they cannot damage it without severely damaging themselves."

For example: → It is a system that coordinates physical, chemical, biological and ecological elements in a manner that makes life possible. Through the term Mother Earth, we express this relationship of belonging to a system and respect for our home. We have exceeded the time limits of our system. We have broken harmony with nature.
