

SECTION - 10

Ques 1: →

Ans: →

Prosperity is the state of having economic "well being" or making more than required. However prosperity is the feel of having wealth and more physical facilities than happiness. It can also be described as the hybrid of 60% wealth and 40% happiness.

As nouns the difference between prosperity and happiness

is that prosperity is the condition of being prosperous, of having good fortune while happiness is the emotion of being happy.

Happiness: - "To be in a state of liking is happiness" "To be in a state of harmony is happiness"

It is non-contradictory, a joy without penalty. Joy that don't clash with any of your values.

Prosperity: - Feelings of having more than required facility that what is needed.
