

## Section - 5

1

15 What is Value education and why is it so important for professional ethics?

Values education ↓

20 means which are effective, competent and useful from educational perspective are equivalent to the value education.

This Value education is also regarded as value in education or educational. The learning of Value for society welfare and individual well being is known as value education.

It is responsible for developing b/w good and bad.

Following are the two important approaches of imparting value education.

① Explicit Value Education

Explicit value education is related with several techniques, system and practices of Teaching used by teachers.

② Implicit Values Education

Implicit value education include various part of educational experience which develop value-oriented learning connected with the ideology of hidden curriculum.

# Importance of Value Education?

① Safeguard Values - It is observed in various religions, social, political, economic and cultural area, this is because of population explosion and increasing the needs of human and knowledge.

So, Value education is most essential part of the Safeguard values.

② Develop Control over Evil Action

An education system determine by knowledge is primarily considered in today educational system. This system prepare the student for exam but fail in developing a wise personality

3 Reduce Violence → Today young generation live a careless life. The existing Indian Society is indulged in some immoral activities.

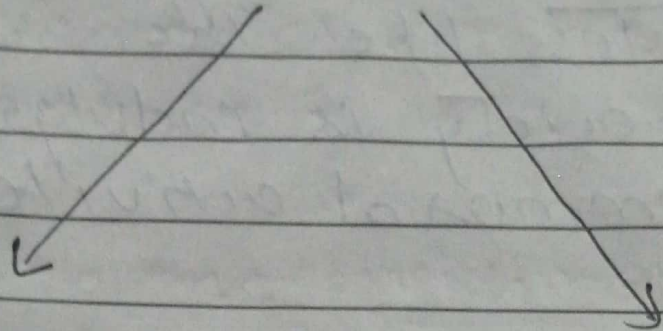

4 Social Indifference → Social Indifference means the individuals are reluctant to give up anything for the welfare of society and the nation.

5 Important of professional ethics →

~~Ethics~~ professional ethics Certain standard or codes are established for the professional that prepare them to solve various moral issue that may arise at the work place. That is called professional ethics.

# Ethics

Theoretical

Applied
