

We use 'for loop statement to print the given sequence.

```
for (expression 1; expression 2; expression 3)
{
    statement;
}
```

use for loop statement to print  
the given sequence.

```
(expression 1; expression 2; expression 3)  
{  
    statement;  
}
```

```
{  
    for (i = -6; i <= 6; i += 2)  
        printf("%d", i);  
    return 0;  
}
```
