

Sec-91

```
void main ( )
```

```
{
```

```
    int a, b;
```

```
    printf("Enter the value of a.");
```

```
    scanf("%d", &a);
```

```
    printf("Enter the value of b.");
```

```
    scanf("%d", &b);
```

```
    a = a + b ;
```

```
    b = a - b ;
```

```
    a = a - b ;
```

```
    printf("The value of a.%d", a);
```

```
    printf("\n the value of b.%d", b);
```
