1:-

### Employee Safety:-

cat. the provision of a safe environment and safe equipment and procedures in the workplace in order to ensure worker's health & safety. While organisations certainly have a moral obligation to ensure the safety of workers where an unsafe workplace can also have serious legal and financial consequences for employers. Safety of workers may also be known as worker safety or occupational health and safety. It is a very essential task to be driven as per the artificial view of aspects as a whole.
