

## KMB-203 (BRM)

### 2:- TYPES OF ERROR:-

- Syntax errors.
- Logical errors.
- Run-time errors.

Two types of errors are distinguish Type I error and Type II error. The first kind of error is the rejection of a true null hypothesis as the result of a test procedure. This kind of error is called type I error and is sometimes called an error of first kind. Whereas, the second kind of error is the failure to reject a false null hypothesis as the result of a test procedure. This sort of error is called type II error and is also referred to as an error of the second kind as a whole.
