

SECTION - 3

1:-

* STEPS INVOLVED IN RESEARCH PROCESSSTEP-1 :- Identify the problemSTEP-2 :- Review the literatureSTEP-3 :- clarify the problemSTEP-4 :- clearly Define Terms & Concepts.STEP-5 :- Define the populations.STEP-6 :- Develop the instrumental plan.STEP-7 :- Collect Data.STEP-8 :- Analyze the Data.

These steps are to be identified as per the aspect as it is been involved in research process as per the aspects these are to be involved in research process.
