

Ques 3:- Write down the short notes on;

(i) Solar Energy,

(ii) Wind Energy.

Ans: Solar Energy:- Solar Energy is radiant light and heat from the sun that is harnessed using a range of ever-evolving technologies such as solar heating, photovoltaics, solar thermal energy, solar architecture, molten salt power plants and artificial photosynthesis.

(ii) Wind Energy:- Wind Energy is the use of wind to provide the mechanical power through wind turbines to turn electric generators and traditionally to do other work, like milling or pumping.
